My family moved to Pepperell in 1964 when I was in the sixth grade. I graduated from NMRHS in 1970 and earned three college degrees, two from UMass Amherst, History 1974, Geology 1976 and one from W.V.U. Masters Geology 1980. My employment journey has taken me from large and small corporations in the energy and environmental fields to my own restaurant franchise. Today I am the proud owner of Niklaus Painting and Construction Co. located in Pepperell. My son Niklaus is 13 years old and my wife Joyce has been my business partner for the past 15 years. Pepperell is a great town and I am personally eager to hear from you on how we can improve the quality of life for all our town residents.

**Town Government:** I will always give thoughtful consideration to all issues, and will work with town departments, school committee and others to improve services and control costs to residents.

**Education and Patriotism:** I am a strong supporter of a good education for all our children and a strong advocate for helping our seniors and our active duty servicemen and women, reservist and veterans. In this way we can build a stronger community and country.

**Results Driven:** I have gained valuable knowledge and experience over the years from both my business and civic service responsibilities. I offer a new perspective and pledge to set goals and work hard to offer solutions to issues for the betterment of the town residents.
